From the Lapland's pure nature

The origins of the "Kota" house began thousands of years ago. The design started when northern tribes were forced to find a way to keep warm in the extreme weather conditions that they faced. The term "Kota" has been used for years to describe a building or hut that originally had sloping sides, this design enabled them to have a fire in the middle of the room that not only kept them warm but also enabled them to cook their food.

Arctic Finland House – company's roots come from Lapland. Since 1990's Arctic Finland House has designed, manufactured and constructed mostly grillkotas and later on more variety of products such as garden houses, pavilions, saunakotas, barrel saunas, camping barrels, hot tubs etc.

Our main objective is to bring the feeling of Lapland's spiritual and relaxing atmosphere into your everyday life reducing the stresses faced in everyday life. Arctic Finland House is one of the first companies that started manufacturing high quality grillkotas. Today Arctic Finland House offers wide range of different products and still today Arctic Finland House's grillkota is setting the standards for high quality.

Arctic Finland House values traditional hand skills and encourages old traditions when manufacturing kotas in their factory. By using only latest technology we can ensure that the quality is always meeting the high demands of our clients. We wish you, your friends and family very pleasant and relaxing times in our kotas.
